New Play Structure

at the Russell Beaudry Open Air Rink

As promised, the Greater City of Sudbury has built a new play structure at the Open Air Rink in Onaping. At the time of print there was still an element of the structure yet to be delivered. Project Playground Revitalization was funded in partnership with the United Way.

Keep our Community Clean

Thank you to those daily walkers who continue to pick up trash along their route. Onaping has always been a showcase for its beauty and cleanliness, which entices people to reside here. Lately, some individuals have been tossing their trash throughout the neighbourhood instead of taking it home and disposing it in their bins. Please do your part to help maintain our community showcase so we can all continue to be proud to reside here.

Thank you,
Ellard Durling

## Onaping Falls Pastoral Charge

Larchwood Memorial, Dowling & St. John's, Levack  
Rev. Susan Peverley Office: 705 966-3823

It has been a strange 4 months for Churches. We have not worshipped in our congregations since March 15<sup>th</sup>. We miss seeing one another and singing together and gathering for our special Fundraising activities. We know that things are changing and we have a **Transition Committee** who is seeking what the options will be before coming back together again and when.

**Welcome Rev. Pev.** *And we are excited and pleased to be welcoming our new minister, the Rev. Susan Peverley who is joining us as we go forward. Volunteers have been busy preparing for her arrival. Rev Pev will live in the Pastoral Charge Manse in Levack. She is a northern Ontario gal who was ordained last June and has been ministering in the South River – Trout Creek area. Please give her a great Onaping Falls welcome!*

# Caring beyond Prescriptions

## From the Pharmacists: Tips for Staying Safe in the Sun

With the lazy, hazy, beautiful summer days upon us, it is great to get outside and enjoy the sun. While some sun is beneficial to our health (think vitamin D), too much sun is not good. The rays of the sun, called “UV” rays, can hurt your skin. UVB rays mostly cause sunburn, while UVA rays can cause early skin aging and skin cancer. The best way to stay safe in the sun is to limit your time outside when the sun’s rays are the strongest, which is between 10AM and 2PM. If you must be outside, wear sunscreen and find some shade or cover your skin with dry, tightly woven clothing. Wear a wide-brimmed hat and sunglasses that block the UV rays from the sun.

### Things to consider when buying a sunscreen:

Choose one with a sun protection factor (SPF) of 15 to 30 or higher. In general, the higher the number, the better the sunburn protection.

Choose one that is “broad spectrum,” as these protect against both UVA and UVB rays.

Choose a “water-resistant” sunscreen. These stay on your skin longer if you are wet or sweating.

No sunscreen is “waterproof.”

Avoid products that have both a sunscreen and bug repellent in one bottle, as sunscreen usually needs to be applied more often than bug repellent.

### Tips for using sunscreen:

Apply generously, about a handful to cover your body, 15-30 minutes before going out in the sun.

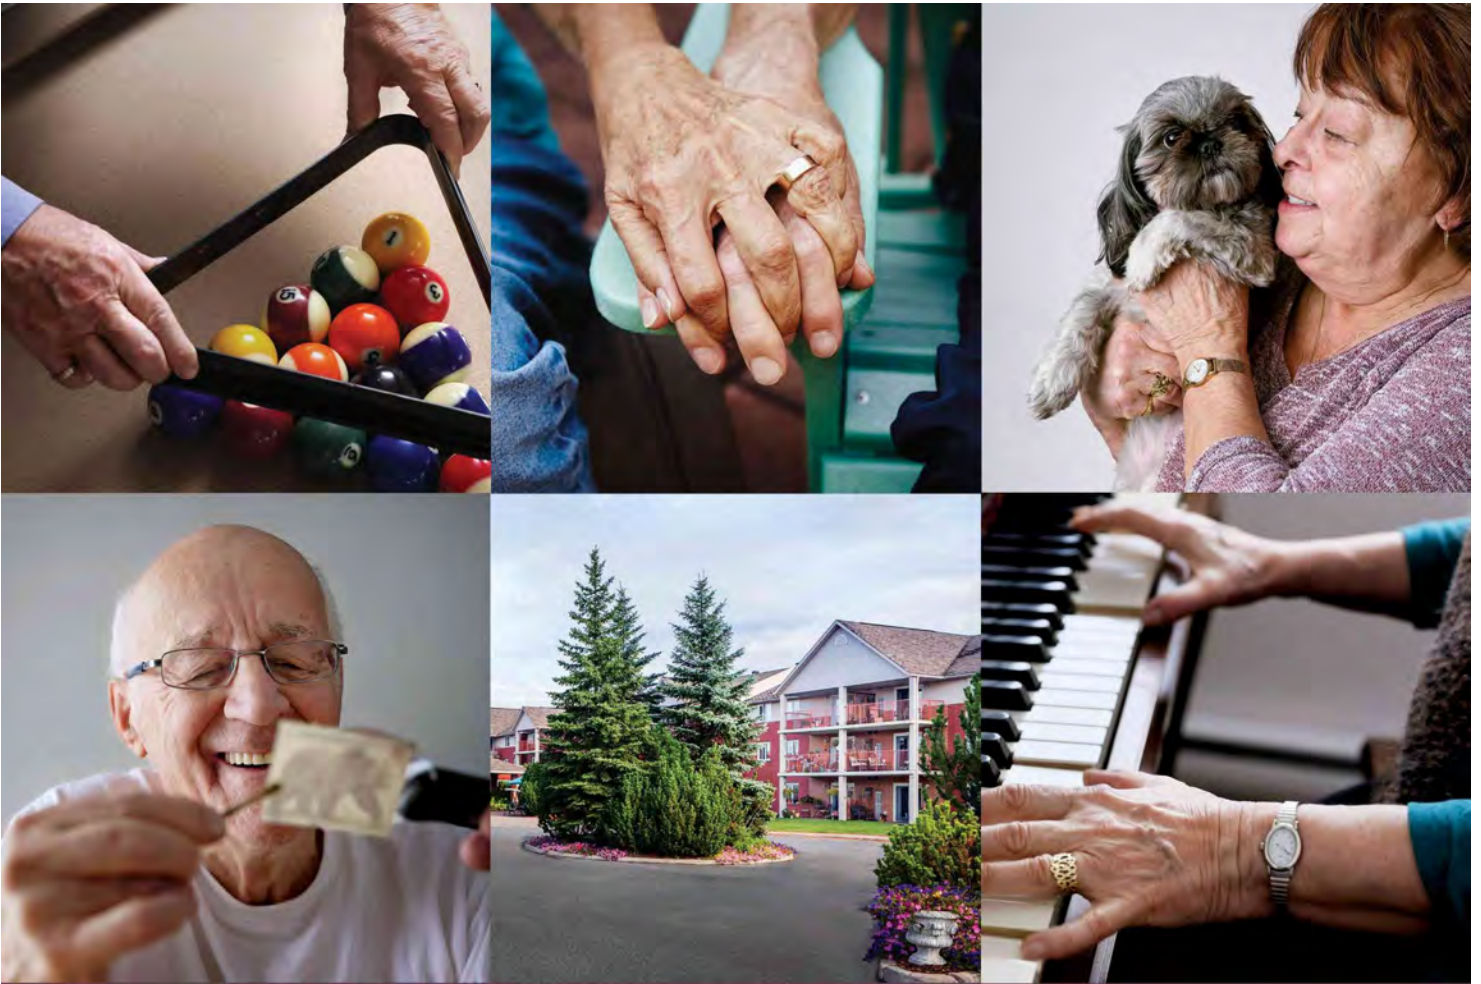

Apply on all skin not covered by clothes. Don’t forget your nose, ears, neck, backs of hands, tops of feet, and top of head (if you don’t have much hair!)

Apply more sunscreen at least every 2 hours, or more often if you are swimming or sweating (even if it’s water-resistant).

Think about sun safety every day, not just when you’re at the pool or beach. Use sunscreen daily to help reduce early skin aging and protect you from skin cancer.
