# EXTREME NORTH GYMNASTICS

First time Invitational Competitors Ellie Mae Claridge, Ava Cloutier and Gabrielle Ayotte had a great day! Bringing home a little hardware for the club from the North Bay Sunshine Classic! Extreme North Gymnastics had 39 competitive athletes compete ranging in age from 5 to 16 years. Many medals were won, personal best made and one heck of a good time.

Congratulations Athletes!

## Major improvements to Highway 69 in Northern Ontario to support safer and more efficient travels

**Greater Sudbury, Ontario, May 21, 2019** ~ Investing in transportation infrastructure is critical to connecting communities, helping our businesses compete, and creating a strong economy and middle class.

Today, Marc Serré, MP for Nickel Belt and Parliamentary Secretary to the Minister of Rural Economic Development, the Honourable Bernadette Jordan, and Paul Lefebvre, MP for Sudbury and Parliamentary Secretary to the Minister of Natural Resources, the Honourable Amarjeet Sohi, announced funding for two major projects providing important upgrades to Highway 69.

The first project involves twinning and realigning an 11-kilometre stretch of road from north of Highway 559 to just south of Shebeshekong Road. Work also involves constructing a new interchange at Woods Road, building new service roads to improve access for local drivers, and installing 14 culverts and 22 kilometres of fencing to protect wildlife.

The second project involves expanding a 19.3-km section of the highway to a four-lane, divided highway, including new twin bridges over Still River, Key River and Straight Lake. The project work also includes building new interchanges at Bekanon Road and at Highway 522.

These upgrades will improve safety and efficiency along this key route, boost trade, and support economic prosperity for the region by accommodating a greater number of commercial and passenger vehicles.

The Government of Canada is investing over \$169.2 million for this project through the New Building Canada Fund – National Regional Projects.

### Quotes

“These vital improvements to Highway 69 will make it easier for businesses to get their products to customers, reduce pollution, and allow local residents to spend less time in traffic and more time with their families. Projects like this improve the daily lives of Northern Ontarians now and lay the foundation for a bright and prosperous future.”

*–Marc Serré, Parliamentary Secretary to the Minister of Rural Economic Development, the Honourable Bernadette Jordan*

## Healthy Living with Danika

by Danika Lavoie-Rochette

For many, June signals the start of their favourite season. Summer can bring many things: days on the beach, camping weekends or weeks of holidays, and for others, it's a time their long awaited hobbies or passions can once again come to fruition. One that is very popular during this time of year, is gardening. There are so many healthy reasons to embark down the route of tending to your own fruits and vegetables.

**First**, it minimizes our carbon footprint, as it permits us to obtain our produce merely a few feet away from our homes. **Second**, the fruits and vegetables we yield are healthier than their store bought counter parts. You can pick them at their peak ripeness, which means they will have the ultimate amount of vitamins and nutrients. You also have the advantage of knowing exactly what you put in your soil and how they were cared for, without the use of harsh chemicals and pesticides. **Home gardens are also great for the environment and especially for our beloved endangered friends that are crucial for a thriving environment, the bees.**

If a full garden seems a little intimidating, try a few potted plants of tomatoes, peppers or lettuce to start. Looking for something even easier? Why not start off with a few herbs? Most of them, such as parsley and thyme, are incredibly low maintenance. They are also perfect to give a fresh pop to your culinary endeavours. Gardening is an incredibly rewarding hobby and I highly encourage you all to give it a try!

Wishing you all a wonderful, safe summer!

We return to BINGO nights the first Monday in September 2019.*

# The Learning Curve by Kyleen Gray

## Crash Course: Reading Report Cards Effectively

With June right around the corner, inevitable report card season looms for students, teachers and parents. There are **four key components** parents and guardians need to pay attention to that should **all be weighed equally** when judging a student's performance throughout the school year.

### Attendance

There is a significant and direct correlation between student attendance and their academic achievement. If students are missing more than 5 days a semester, it will inevitably impact their achievement in school - especially if they aren't catching up on missed work. These missed days still need to be taken into consideration when looking at a student's overall achievement for the school year.

### Learning Skills

In Ontario, students receive learning skill evaluations (N = needs improvement; S = satisfactory; G= good; E = excellent) that align with student success: responsibility, organization, independent work, collaborative work, initiative and self-regulation. Like student grades, these learning skills are tracked by teachers throughout the school year and reflect a great deal of information about student learning. Reading student grades through the lens of learning skills is important in rendering a clear picture of student learning.

### Comments

What teachers cannot communicate via letter/numeric grades and learning skill evaluations, they try to encapsulate in their comment. Unfortunately, in recent years teachers have been prescribed the comment format for their students (positive, negative, next step) by the Ministry of Education, so generating a personalized message can be challenging. Nevertheless, in the comment section the last couple sentences should be the focus of reading - they will often explain what the student needs to work on to improve or advance their learning over the summer months.

### Letter/Numeric Grades

Although often deemed the most 'important' part of the report card, in actuality letter (or numeric grades in secondary school) are only part of the big picture of student learning. Since the Ministry of Education has now banned elementary teachers from reporting modified grade achievements as well as giving elementary students 'failing' grades, in reality sometimes they aren't at all reflective of the students actual achievement. Once students enter secondary school, numeric grades become more reflective of actual student learning since there are fewer 'social safety nets' and students can fail courses.

# SCHOOL NEWS

## KINDergarten Kindness ninjas are about!

These Larchwood students hosted a hot dog day and a toy drive to provide items below in the photo to NEO kids.

They also donated items to the SPCA and some non slip socks for the residents of Finlandia.

corn say to the  
Mommy corn?**

Where's Pop corn!

**What did the Daddy  
spider say to the  
Baby spider?**

You spend too much  
time on the web!

**ONAPING  
FALLS  
NORDICS  
SKI CLUB**

Onaping Falls Nordics Ski Club had a very successful season this year with increased memberships and day skiers. A great deal of appreciation and thanks go to our many sponsors.

Of particular focus is our gratitude to Glencore and its employees for a very generous donation of \$30,000. This donation enabled our Jackrabbit program to have new equipment for all the children without their own. We also increased our adult rental equipment allowing families to come out and enjoy the great outdoors, sometimes for the first time. Family Day was a greater success due to the greater variety of skis, boots and poles for all ages.

Beyond the equipment, Glencore allowed us to purchase major equipment including a Ginzu and roller which helped in improving the methods used in maintaining the quality of the trails. We look forward to next season and having the local communities enjoy the outdoor adventure that cross country skiing provides.

# Seenager

I **JUST** discovered my age group! I am a **Seenager** (senior teenager).

I have everything that I wanted as a teenager, only 55-60 years later. I don't have to go to school or work. I get an allowance every month. I have my own pad. I don't have a curfew. I have a driver's license and my own car.

I have ID that gets me into bars and the wine store. I like the wine store best. The people I hang around with are not scared of getting pregnant, they aren't scared of anything, they have been blessed to live this long, why be scared? And I don't have acne. Life is Good!

Also, you will feel much more intelligent after reading this, if you are a **Seenager**. Brains of older people are slow because they know so much. People do not decline mentally with age; it just takes them longer to recall facts because they have more information in their brains. Scientists believe this also makes you hard of hearing as it puts pressure on your inner ear.

Also, older people often go to another room to get something and when they get there, they stand there wondering what they came for. It is **NOT** a memory problem; it is nature's way of making older people do more exercise.

## **SO THERE!**

I have more friends I should send this to, but right now I can't remember their names. So please forward this to your friends; they may be my friends, too.

*Thank You from the MacDonaldis*

We celebrated our 50<sup>th</sup> Anniversary at St. Bartholomew's Church.

It was supposed to be a renewal of our vows at the church and then home for a family BBQ. We were both humbled and surprised when we were told to go downstairs and were greeted by a hall full of friends and relatives.

Thanks so much for making our 50<sup>th</sup> Anniversary such a wonderful event to remember. There were relatives and friends from Cape Breton, Chatham Ont., Elliot Lake, Red Lake, Sudbury, Manitoulin Island, Pembroke, Lively and of course, Onaping Falls.

Thanks to all of you and a very special thanks to our amazing children and their spouses for once again planning such a wonderful surprise.

Thanks also to everyone who gave gifts, well wishes and cards. They were all very much appreciated!

**Love you all,
